CAREER OBJECTIVE

I'm a driven frontend developer with a passion for crafting elegant and user-centric web applications using cutting-edge technologies. Currently Seeking dynamic projects to collaborate with talented teams, fostering continuous learning and growth.

Professional Work Experience

Junior Frontend Developer (Product Team)

July 2022 - Oct 2022

Zoovu, Wroclaw PL

- Contributed to the design and production process. Worked alongside experienced developers in building consistent and reusable components with React.
- I also conducted code reviews with team members before deployment.
- Key contributions include completing the component library on storybook, writing and editing documentation, ensuring accuracy and completion of guides for the target audience.

Senior Digital App Operator

May 2018 - Aug 2021

Carlcare Development, Lagos NG

- Played a key role in understanding and testing application requirements. Providing feedback on design and functionality, ensuring that the application met user needs.
- Ran tests, identified and resolved issues with the development team, monitored user feedback and engagement. By tracking KPIs, i gained insights into user engagement, retention and conversion rates to make improvements to the application.
- Notable contributions include significantly increasing the number of users on the application, improving retention rates and enhancing the overall application performance.

Software Product Tester

Feb 2015 - April 2017

Infinix Mobility, Lagos NG

- I conducted a variety of tests, including functional, performance, usability, and compatibility tests, to ensure the proper functioning of smartphones and software releases.
 - Additionally, I performed durability tests to assess the resilience of smartphones to normal wear and tear.
 - I also conducted performance and benchmark tests to meet company standards.
- Collaboration with the R&D team ensured that smartphones and software met user needs and that any issues were promptly addressed.
-
